REQUEST FOR CORRECTED FILING RECEIPT

Sir:

Submitted herewith is a copy of the filing receipt for the above-identified application, with the request that a new filing receipt be issued reflecting the correct continuing application data as follows:

THIS APPLICATION IS A CIP OF	08/336,247	11/07/94	
<u>AND A CIP OF</u>	08/160,194	12/02/93	
<u>AND A CIP OF</u>	08/906,469	08/05/97	
WHICH IS A CIP OF	08/160,281	12/02/93	PAT 5,798,785

It is requested that this error be corrected and clarified because the instant application is not a continuation-in-part application of all of the listed continuing applications. Rather, the instant application is a continuation-in-part of the first three listed applications, while Serial No. 08/906,469 filed 08/05/97 is the only application which is a continuation-in-part of 08/160,281.

Since the error was not made on the part of the applicant, no additional fee is required. A copy of the first page of the application, which indicates the continuing application data, is attached hereto as evidence thereof.

It is therefore respectfully requested that a new Official Filing Receipt be prepared correcting the continuing application data.

Date:

Oct 27, 1999

Respectfully submitted,

Technical Field

This invention is directed to an electronic book unit having one or more electronic books. More specifically, the invention relates to an apparatus and method for restricting access to electronic books.

Background Art

Sparked by the concept of an information superhighway, a revolution will take place in the distribution of books. Not since the introduction of Gutenberg's movable typeset printing has the world stood on the brink of such a revolution in the distribution of text material. The definition of the word "book" will change drastically in the near future. Due to reasons such as security, convenience, cost, and other technical problems,
